GENERAL TERMS OF SALES

PRICES

Sales prices recommended to public, expressed in Euro (€)

Packaging included, VAT excluded. The Price List in force from June 2020 substitutes and nullifies all previous ones and may be changed without previous notice.

ORDERS AND ORDER CONFIRMATION

Clients and Representatives are invited to send orders in writings or via e-mail at info@easy-line.it or at their back office manager of reference, specifying with accuracy quantities, articles, codes, colours, finishings of ordered products.

The Company will not be held responsible for supply discrepancy due to a lack of clarity of submitted orders. Phone orders will not be accepted.

For the order execution it is applied what has been reported in the Order Confirmation sent from the Company. We recommend Clients and Representatives to thoroughly control it and to report any inaccuracy and/or divergence within 3 (three) days.

CANCELLATION

The order cancellation will have to be communicated in writings within 3 (three) days from the receiving of the order confirmation and it will be valid only if it will be confirmed in writings by the company. Once the deadline has elapsed the Company reserves the right to charge the Clients the costs of materials and workmanship incurred until the order cancellation.

DELIVERY TERMS

Orders lower than € 700 net will be processed with an automatic standard charge of € 60 plus VAT in the form of administrative expenses without obligation by the Company to ask the Client for consent. Orders higher than € 700 will be processed carriage paid.

The delivery terms communicated by the Company are approximate, they are not binding and possible delay shall not give rise to cancellations, litigations or claims for damage refund. The Company reserves the right to suspend deliveries in case of non-compliance, even partial, of the Buyer's obligations. Delivery terms may vary in the case of force majeure, unforeseeable circumstances, natural events, epidemics and pandemics. These cases justify a possible total or partial non-compliance by the seller, both in supply and schedule originally planned, requiring the parties to confront on renegotiating mutual contractual obligations.

TRANSPORT AND DELIVERY

Regarding seller and buyer's obligations, the product's delivery place and time as well as the distribution of costs between seller and buyer, INCOTERMS 2020 regulations will be applied and more precisely the regulation EXW Bovisio Masciago INCOTERMS 2020. Notwithstanding different agreements between the parties formalised with the sales proposal/acceptance and as indicated in the transportation documents and invoice.

Specifically, by way of example and non-exhaustive, it is clarified how:

- the seller has the only obligation of communication place and time in which the products will be delivered. All other obligations are upon the buyer;
- the seller has the obligation to supply products and commercial invoice, deliver the products within the agreed period.
- the buyer has the obligation to pay the agreed price for the products, to obtain the licences or authorisations for customs export, to take delivery of the products communicating the pick up date to the seller and providing appropriate evidence of the take charge;
- the products, even if sold carriage paid, travel at the buyer own risk.

In case the parties otherwise agree on the delivery of the products in a specific place with transportation and custom clearance costs relating to export will be borne by the seller, is agreed upon the application of the clause DAP INCOTERMS 2020. In this case, the parties agree from now that the products unloading costs will be borne by the buyer in accordance with DPU INCOTERMS 2020 regulation with the annex responsibilities.

RETURNS AND COMPLIANCES

Returns of goods will be accepted only upon prior written authorisation from the Company and if sent carriage paid in the original packaging or anyway suitable to safeguard the integrity of the product therefore we recommend using: styrofoam or rigid material corners, styrofoam for all long parts and rigid and impact resistant cardboard for the outer cover.

Any damage must be notified in writings within 8 (eight) days from the receiving of the products, sending images of the defect found and of its related packaging and a copy of the DDT with affixed the stamp "received subject to inspection".

The provision of the "faulty" goods must be immediate, and precisely within 1 day from delivery with formal communication to the seller. The seller shall entrust its own workforce in loco to verify the reported fault or shall communicate to ship the faulty goods to the seller's premises for the necessary verifications within 10 working days from the report.

Verified the product or received the faulty goods, the seller will have 1 (one) month to verify what reported and reply to the buyer about the fault responsibility and potential solutions.

The buyer will always have to bear the transportation costs, both for the return of fault goods and for the new delivery of goods.

PAYMENTS

The methods of payment are shown on the order confirmation, the non-observance entitles the charges of default interests in accordance with Decrees n. 231/2002, 192/2912 and Decree-Law 51/2015 in fulfilment of the Directives 2000/35/CE and 2011/7/UE (application of the legal default interest BCE with applicable 8% surcharge, from the deadline or within 30 days from invoice's date).

Potential non-compliance even partial of the buyer legitimates the suspension of any seller's still outstanding obligations. The suspension of any obligation of the buyer works by law and automaticity from the day of communication even via email of the non-compliance even partial of the buyer and without any further notice.

Sub-sequentially the buyer fulfilment, previously non-compliance even partially, the seller's obligations will be once again outstanding with the automatic alignment of the delivery terms (that will be suspended for the period of time above-mentioned of communication of non-compliance).

PRODUCTS AND TOLERANCES

For products are authentic the measurements and characteristics described in the current price-list, notwithstanding the Company's right to apply changes and improvements without obligation of notice: special measurements or variation of colours must be previously agreed upon with the commercial offices of the Company that will give confirmation of feasibility and additional costs.

Colours of wood, lacquer, fabric, leather, hide, metal and other materials in the sample case are approximate and potential light differences that may be found with the delivered product are not binding for the Company.

WARRANTY ON PRODUCTS

On sold/purchased products is applied a law warranty of 12 months (ex art. 1495 comma 3 Codice Civile) from the delivery of goods.

PROHIBITION ON THE USE OF THE BRAND

The brand EASYLINE is registered at n. 1435340 with the competent authorities and it is protected by the existing legislation. It is a total prohibition the use of said brand and of contents referred to EASYLINE collections.

The retailer is prohibited the usage for promotional purposes, advertising or commercial, of any content referred to EASYLINE collections (Brand, images, videos, etc.), with the exception of a previous formal authorisation agreed by the parties.

It is also prohibited the usage of EASYLINE contents via the company's social channels: Instagram, Facebook, Pinterest, YouTube and LinkedIn. Unless different agreements in relation to authorisations in the usage of above-mentioned contents.

NORMS AND CONTROVERSIES

Concerning what not explicitly mentioned in the present Terms of Sales, it applies the Italian legislation expected in the matter by the Civil Code in force. The law regulating the contract is the Italian Law.

The parties commit to preventively turn to the ADR procedures as a preventive solution for any kind of controversy and interpretation of the contract, with appeal to the Organismo di Conciliazione formed by the Chamber of Commerce of Monza and Brianza with the application of Regulation established by it.

The appeal to the exclusive forum of the Monza Tribunal will be only subsequent to the attempt of reconciliation.
